

2025 ANNUAL REPORT SUMMARY

EDUCATIONAL PRODUCTS

SUBCOMMITTEE

PURPOSE

The Educational Products Subcommittee reviews, recommends, and as appropriate, develops educational products. It also curates and assures the quality of the resources posted on the [Educational Products](#) page of CUGH's website, including open-access toolkits, online courses, case studies, and other materials that are useful for the global health community.

CO-CHAIRS

- **Bhekumusa Lukhele**, University of Alabama at Birmingham
- **Kalimah Ibrahiim**, Buckinghamshire New University

KEY ACHIEVEMENTS

Welcomed new co-chairs to lead the subcommittee.

Developed a panel proposal for CUGH 2026.

FUTURE ACTIVITIES

- **Hold panel at CUGH 2026:** *Global Health Educational Products in a Changing Landscape*. The panel aims to:
 - Identify and access open-source global health educational resources curated by the CUGH Education Products Subcommittee.
 - Integrate thematic resources into curricula to enhance learner competencies in resilience, adaptability, and systems thinking.
 - Contribute to and advocate for continuous improvement of open-access global health educational repositories in response to evolving global priorities.
- **Review and update membership:** There is a need to enroll new members as participation is limited among current members.
